Executive Director

## The Measure of Our Success

The Nebraska Materials Exchange Program measures success a number of different ways: the amount of tonnage diverted from the landfill, the number of participants and listings, and the amount of money companies save in landfill disposal fees--just to name a few.

But not all of our success stories involve working with businesses to keep large volumes of material from the landfill or saving a hazardous material disposal fee. Often, success is locating an inexpensive laptop computer for a church or plastic bags for a zoo's educational project.

We're working to increase these successes by expanding the number of schools and nonprofit organizations who are aware of the Materials Exchange. We've recently sent hundreds of informational letters and brochures to this target audience. We're also developing a special "notify" list to quickly identify and contact schools and organizations when usable material becomes available.

Your organization doesn't need to have an active listing with the Exchange to be included in the notify list. The list will consist of all schools, nonprofits, and civic organizations who are currently participating or have expressed an interest in the Exchange. To make sure your organization is included in our list and to update your information, just email us at [info@knb.org](mailto:info@knb.org) or call us at 402-486-4622.

We also need the help of businesses, manufacturers, and other organizations who may have unwanted materials taking up valuable storage space. Just inventory your storerooms and take stock of any office, building, or educational materials you no longer need. We can't promise to find a home for everything in your storage closet, but we'd like the opportunity to try!!

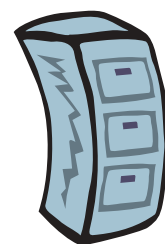

A company contacted the Exchange about a large quantity of unused cleaning supplies they no longer needed. Over 50 schools and nonprofit organizations were alerted to the availability of the supplies. Several lucky organizations acted quickly and were able to save hundreds of dollars on cleaning supplies.

A set of encyclopedias no longer being used by a central Nebraska library are now being reused by a nonprofit organization dedicated to educating special needs children.

After being contacted by a Lincoln insurance company for help in relocating 18 unneeded

file cabinets, Exchange Facilitators began contacting organizations that could use the cabinets. Within a few days, all of the file cabinets found new homes, freeing up storage space for the insurance company and providing free file cabinets for cash-strapped nonprofit organizations.

## COOPERATION LEADS TO WIN - WIN SITUATION

It started with a conversation in March between Bill Pendgraft with the Iowa Waste Exchange and the Nebraska Materials Exchange. According to Bill, Koster Grain in Carroll, Iowa was looking for large quantities of wood waste, and they were willing to travel throughout Iowa and into Nebraska to get it. After talking with Koster Grain for more details, the Exchange began looking for wood waste suitable for use in Koster's new wood pelletizing operation.

In April, Weyerhaeuser Recycling in Omaha contacted the Exchange about a large amount of wood waste being generated at Eaton Corporation in Shenandoah, Iowa. Each month Eaton was landfilling tons of crate and pallet lumber, and they had looked to Weyerhaeuser for a recycling option. Since Weyerhaeuser was unable to recycle the wood, they contacted the Exchange.

Hoping the wood waste would work for Koster, the Materials Exchange facilitated the initial contact between Eaton and Koster Grain. The two companies began a dialogue and, after working out the transportation details, Koster picked up the first load of wood from Eaton in May.

In order to reduce transportation costs, Eaton employed Nishna Productions in Shenandoah to break down the crates and band the wood together. Nishna Productions is a nonprofit organization based in Southwest Iowa that employs people with disabilities, giving them the opportunity to earn a wage and learn valuable skills.

Currently, Koster Grain is picking up approximately 40 tons of wood waste each month from Eaton Corporation. This is one success story that has a positive impact in a number of different ways.

- ◆ Koster Grain is able to get valuable feedstock for a new business venture--grinding recycled wood into pellets for use in wood burning stoves.
- ◆ Eaton Corporation saves landfill fees.
- ◆ The employees at Nishna Productions earn a wage while learning vocational skills.
- ◆ A significant amount of tonnage is diverted from the landfill.
- ◆ Through cooperation and communication, the Iowa Waste Exchange, Nebraska Materials Exchange, and Weyerhaeuser Recycling created a win-win situation for everyone involved.

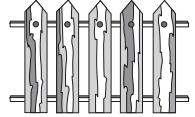

**Wooden shipping crates at Eaton were once discarded in the landfill**

## LISTING SPOTLIGHT

### AVAILABLE MATERIALS

*An Omaha fencing company generates waste including metal, cedar, and vinyl scrap. Crafters might be particularly interested in this free material. Call the Exchange for details!*

**COMPLETE CUBICLE SET-UPS AVAILABLE**  
10 FT X 10 FT  
INCLUDES DESK, PARTITIONS, AND LIGHT BOARD

**An automated mailing center is available. It can process hundreds of letters per day and would be great for either nonprofit organizations or businesses!**

### SEEKING MATERIALS

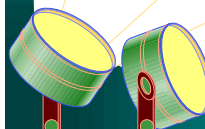

**Complete, twin bed sets are needed for a substance abuse treatment center!!**

**A LINCOLN NONPROFIT ORGANIZATION NEEDS PLASTIC HANGERS AND CLOTHING DISPLAY RACKS FOR THEIR STORE. THE STORE PROVIDES LOW-INCOME CLIENTS THE OPPORTUNITY TO SHOP FOR DONATED ITEMS.**

**A Humane Society in the Panhandle is looking for an intercom system**

**CALL THE EXCHANGE FOR FURTHER INFORMATION • 402-486-4622**

# TAKE THE RECYCLING CHALLENGE QUIZ!

**HOW DOES YOUR BUSINESS OR ORGANIZATION MEASURE UP IN RECYCLING AND REUSE EFFORTS? TAKE THE FOLLOWING QUIZ AND FIND OUT.**

*RECIPE FOR A HEALTHY PLANET:*

- √ **REDUCE**
- √ **REUSE**
- √ **RECYCLE**

**DO YOU.....**

- |  |               |       |
|--|---------------|-------|
| 1. Make double sided copies when possible  | ADD 10 POINTS | _____ |
| 2. Use paper with recycled content   | ADD 10 POINTS | _____ |
| 3. Have and utilize office-recycling bins  | ADD 10 POINTS | _____ |
| 4. Look for recycled content office supplies   | ADD 10 POINTS | _____ |
| 5. Reuse office supplies   | ADD 10 POINTS | _____ |
| 6. Send toner cartridges back for recycling  | ADD 10 POINTS | _____ |
| 7. Utilize e-mail for sending documents  | ADD 10 POINTS | _____ |
| 8. Limit the sending of faxes  | ADD 10 POINTS | _____ |
| 9. Use reusable plates, utensils and glasses   | ADD 10 POINTS | _____ |
| 10. Minimize packaging and shipping by buying in bulk and reusing shipping materials | ADD 10 POINTS | _____ |

**WHAT'S THE SCORE?**

**TOTAL**

\_\_\_\_\_

**Relaxed Recycler**

(If your score was between 0-30 points)

Your business/organization makes relatively few efforts to recycle. To take a more positive approach to recycling, try implementing a few of the following suggestions:

- ◆ Reuse newspaper, packaging "peanuts", and bubble wrap to ship packages.
- ◆ Separate all office waste including bottles, cans, and waste paper into clearly identifiable recycling bins
- ◆ Purchase recycled-content products and supplies for the cafeteria and office areas, as well as for maintenance and janitorial operations.
- ◆ Purchase reusable products. Use items that are more durable, refillable and reusable.

**Routine Recycler**

(If your score was between 40-60)

While your business/organization is aware of the benefits of recycling and does try to make a concerted effort to recycle, there are some areas in which it can improve. Improve your score by incorporating these recycling ideas.

- ◆ Donate your old computers and office furniture.
- ◆ Reuse one-sided paper.
- ◆ Share magazines and other publications with co-workers before recycling them.
- ◆ Recycle used ink cartridges from printers by sending them to a facility that accepts them.

**Renegade Recycler**

(If your score was between 70-100)

Your business/organization is aware of the numerous benefits that recycling provides and makes the necessary steps to encourage recycling. Here are a few more ideas to help in your recycling efforts.

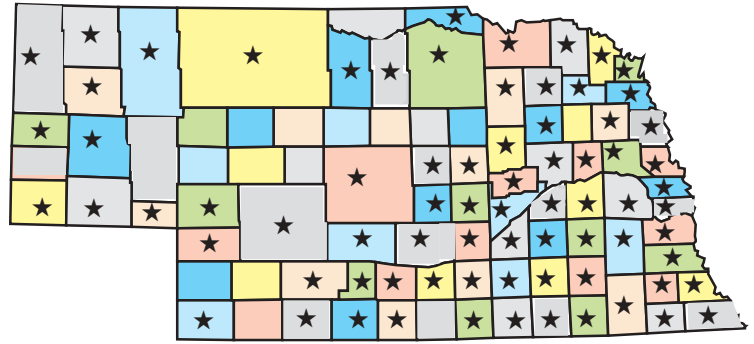

- ◆ Recycle old computer floppy disks.
- ◆ Keep old carpet. Natural fiber carpets can be composted and old synthetic carpets have value as recycled materials.
- ◆ Edit work on-screen before printing.

This quiz was reprinted with the permission of the Solid Waste Association of North America (SWANA). For more information about SWANA, you can visit their website at [www.swana.org](http://www.swana.org). For more information about recycling in Nebraska, including local recycling information, you can visit our website at [www.knb.org](http://www.knb.org).

# The Nebraska Materials Exchange Program Wants You!

Currently 75 counties in Nebraska are involved with the Materials Exchange Program. Participating counties are denoted by stars on the map at right. Exchange representatives would like to have **ALL** counties in Nebraska actively participating in the program.

If you or someone you know hasn't joined yet, the Materials Exchange Program wants you! Call 800-486-4562 (or in Lincoln call 486-4622.)

The following counties currently have no participants in the Materials Exchange Program:

**Arthur    Blaine    Franklin    Garfield    Hayes    Hooker    Logan    McPherson    Thomas**  
**Banner    Chase    Garden    Grant    Hitchcock    Keya Paha    Loup    Stanton    Wheeler**
