Promoting reuse and recycling in Nebraska

Materials Exchange Program

The Year In Review

As was true for many sectors of the economy in 2009, the Materials Exchange saw a number of sudden changes in participation throughout the year. While the first half was marked predominately by lows, things started turning around as we made our way through the summer, and ended on a far more positive note than we could have expected early on.

The biggest negative impact culminated in May. After months of declining production (and therefore less waste) the generator of the largest ongoing match in the history of the program had to shut their doors. And they weren't alone as 5 other long-term matches ended with the demise of at least one participant from each equation in 2009.

While the contracting economy led to less material matched than in either 2007 or 2008, the Exchange still had a lot to be excited about. By June and July, many of the participants who'd lost partners earlier in the year, had started relationships with new referrals. In addition, as manufacturers seemed to be searching for new money saving strategies, our contacts with new participants increased and we were able to help several establish matches that started to turn our year around. When all was said and done, participant matches diverted more than 22 million pounds of waste from Nebraska landfills, bringing the total since inception of the program to more than 168 million pounds.

Although it wasn't always clear that we would make it, 2009 ended as the third year in a row that totals topped 20 million lbs.- the third best year in Exchange history. Only two major categories, Wood Waste and Oils & Waxes

saw an actual decline from the previous year. Despite losses there of nearly 6.2 million lbs., every other major category actually saw an increase, and we ended 2009 less than 1.5 million lbs. behind the totals recorded in 2008.

Paper & Cardboard and Rubber both saw diversion increases of over 1/2 million lbs, and Container & Pallet matches rose by more than 1 million lbs. Best of all, more Metal (over 2.8 million lbs.) in 2009 than in the previous 9 years

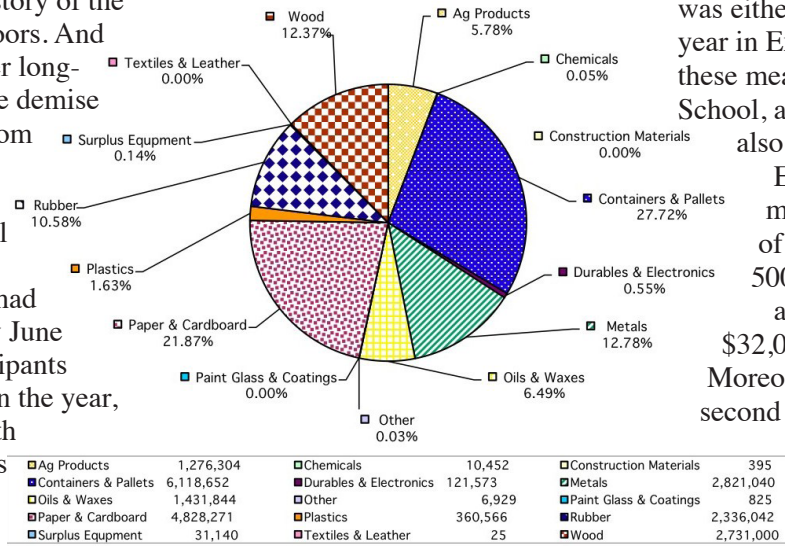

The number of participant matches (828) grew by more than 10%, and new participants (207) were 46% more than we had in 2008. Growth in these areas can be attributed to a number of factors including a partnership with the City of Lincoln Watershed Management Div, in an attempt to promote the use of rain barrels. In all some 335 plastic 55 gal food-grade drums were matched with more than 100 individual participants not only in Lincoln, but from all over SE Nebraska including Omaha, Beatrice, Seward and York. In all, 2009 was either the best or second best year in Exchange history in terms of these measurements. Non-profit, School, and Government participants also had a good year at the

Exchange. Surplus equipment matches were on par with each of the last five years as more than 500 desks, chairs, file cabinets, and the like, worth an estimated \$32,000 went to 40 different groups. Moreover, Office Supplies had the second best year in our history.

Thousands of pencils, staplers, letter trays, tape dispensers, file folders and the like, worth a conserva-

tively estimated \$8500, went to nearly twenty different groups. Although most of the items offered were in Lincoln, participants came to the Capitol City from all over the eastern half of the state including folks from Norfolk, Hastings, Lexington, Omaha and Beatrice. All of this would seem to indicate that, while 2009 was a difficult year for many, manufacturers, non profits, and individuals alike found ways to save money and lower their environmental impact and the Materials Exchange was happy to be in a position to help them do it. Thanks to all our participants in 2009!

2009 Matches By Category

combined! Even Wood saw a resurgence starting in October when the Exchange helped a group of Omaha manufacturers establish ongoing matches of some 120 tons per month. Better yet, the recipient was none other than the company forced to scramble for six months after the "largest ongoing match in our history" ended. Assuming the matches continue, the diversion of wood waste in 2010 should approach the averages seen in each of the last 5 years.

Other indicators also provided reasons to cheer in 2009. For instance, the number of new listings (505) saw a 25% increase over the previous year.

I'm Coming To Lincoln

In the last issue of The Link, we shared several stories of non-profits from around the state making long distance matches – especially by coming

to Lincoln when office furniture and equipment was being generated here. Although it's been suggested over the years, we've never been able to tell of someone contacting us to say they were coming to town for other reasons, and could we help them find items to pick up while here. Well that wait is finally over.

Shortly after the New Year Shelby Jones, Executive Director of Sandhills Crisis Intervention Program in Ogallala, contacted us with a list of office furniture and equipment that she desperately needed for a new branch of service they are planning to offer in 2010. The longtime Exchange participant said that she had some work-related meetings scheduled in Lincoln at the end of the

month, and was curious to know if there were businesses in town generating an item or two that she could bring back with her. We didn't have any active listings for the items on her list, but said that we'd be happy to see what we could come up with.

In recent months the Exchange has had three or four frequent office furniture generators clear out a number of items, so we decided to start with one of them. An affirmative response came promptly, and the same was true for the second, and third with each of them crossing a few more items off the list. By the time we got back to Shelby, she was shocked to learn that so much stuff was waiting for her that she'd need to rent a U-haul! Not a bad problem to have for sure since, as she wrote back, "the money SCIP paid for renting the U-haul, fuel, and staff time didn't come anywhere close to the value of the items we received".

After all was said and done, the U-haul returned to Ogallala with 35 3-ring binders, 3 TV's (and 2 carts to put them on), a large 2 door cabinet, a variety of (40) chairs,

3 desks, 5 dry erase boards, 1 file cabinet, 20 recycling bins, and 15 tables. In all, the Exchange estimates the mostly used value of the material to be more than \$2,800. To Shelby and SCIP, the donations made by these terrific corporate participants are no doubt priceless.

Volunteer Mugs

A company with a large presence in Lincoln recently ended an in-house campaign before it really got started and the local

office found themselves left holding hundreds of coffee mugs. Six hundred mugs to

be exact – all bearing the phrases "HERO AT WORK. Making a difference". Had they said just about anything else, we probably would have had a difficult time placing them, but as they were, Exchange facilitators thought non-profits might see them as a way to thank their employees and volunteers. We

quickly found out that we weren't alone as we explained the situation to Keep Nebraska Beautiful Executive Director Jane Polson at the same time we were sending out our first round of emails. Not only did she agree that it was a good idea, but she went a step further and contacted a few of the local Keep America Beautiful affiliates in Nebraska to see if they might want some for their volunteers. All were enthusiastic about the idea and Jane will be distributing them next week as she hits the road for affiliate training meetings.

As for the rest of the mugs, we never had to send out another email since the first four groups contacted all said they'd love a chance to show volunteer appreciation in this way. By the end of the next business day, all of the mugs had been picked up, and a story that started with the end of a program, ended with the beginning of a new opportunity for non-profits across Nebraska to show valued volunteers just how much they're appreciated!

Nebraska Materials Exchange Program Application

The purpose of this form is to identify any waste or surplus materials from one business, industry or school that could be utilized by another. The more information you provide, the more likely an exchange will occur. Please type or print. Questions? Call Keep Nebraska Beautiful at 1-800-486-4562. (In Lincoln call 486-4622)

Company/Organization _____
Contact _____ **Date** _____
Mailing Address _____
City _____ **State** _____ **ZIP+4** _____
Phone (____) _____ **Fax** (____) _____
Email Address _____

Note: Please complete all applicable items. If you have more than one item, please copy this form for each material, or attach a list of materials and the quantity of each one.

1. Is your company/organization a 501(c) 3 nonprofit organization? ____ Yes ____ No
2. May we release your name/address/phone to interested parties? ____ Yes ____ No
3. Are you SEEKING or GENERATING this material? ____ Seeking ____ Generating
4. Please Specify Material Here: *Generic name or primary usable constituent (If plastic, list mfg. & commercial name/grade #):

5. List quantity (in units: pounds, etc.): _____ Per: Day Week Month Quarter Year 1X only
6. Physical state: (if applicable) Liquid Slurry Solid Semi-solid Sludge Dust Cake Gas Other _____
7. Packaging: (circle one) Bulk Drums Dumpsters Gaylords Pallets Bales Other _____
8. General information as known: chemical composition, type of plastic, main ingredients, cost, pH, toxicity, reactivity, color, particle size, flash point, total solids, purchase date, industrial process generating this material, contaminants, etc.

9. Available to interested parties: (if applicable) ____ Sample ____ Lab Analysis ____ Independent Analysis
10. Please list any items your company would be willing to donate to schools or nonprofit organizations. (Working computers, office furniture and equipment, cleaning supplies, etc.)

Thanks for your interest in the Nebraska Materials Exchange. We'll send a copy of our quarterly newsletter, The Link, & keep in contact regarding your listing. If an Exchange referral results in a match, we'd appreciate the information - landfill diversion totals ensure the Exchange remains accessible & free to all Nebraskans.

Please mail or fax this form to:
 Keep Nebraska Beautiful,
 3201 Pioneers Blvd., Suite 118
 Lincoln, NE 68502-5963
 Fax: (402) 486-4563

Applications can also be submitted via the website at www.knb.org
