

## EPA Municipal Solid Waste Facts and Figures

EPA recently published their collection and recycling Facts and Figures for Municipal Solid Waste (MSW) in 2018. Here's what they found.

The total generation of MSW in 2018 was 292.4 million tons or 4.9 pounds per person per day. Of the MSW generated, approximately 69 million tons were recycled and 25 million tons were composted. Together, (that is) equivalent to a 32.1 percent recycling and composting rate. An additional 17.7 million tons of food were managed by other methods including as animal feed, co-digestion/anaerobic digestion, bio-based materials/biochemical processing, donation, land application and sewer/wastewater treatment. In addition, nearly 35 million tons of MSW (11.8 percent) were combusted with energy recovery and more than 146 million tons of MSW (50 percent) were landfilled.

### Generation

The total generation of MSW in 2018 was approximately 23.7 million tons more than the amount generated in 2017. Per capita MSW generation increased from 4.5 pounds per person per day in 2017 to 4.9 pounds per person per day in

2018. The increase from 2017 to 2018 is mainly the result of EPA's inclusion of additional wasted food management pathways.

Paper and paperboard products made up the largest percentage of all the materials in MSW, at 23.1 percent of total generation. Generation of paper and paperboard products declined from 87.7 million tons in 2000 to 67.4 million tons in 2018. Generation of newspapers has been declining since 2000, and this trend is expected to continue. The generation of office-type (high grade) papers also has been in decline. Paper and paperboard products have ranged between 28.4 and 23.1 percent of generation since 2010.

Food waste comprised the fourth largest material category, estimated at 63.1 million tons or 21.6 percent of total generation in 2018. Yard trimmings comprised the next largest material category, estimated at 35.4 million tons, or 12.1 percent of total generation, in 2018. This (marks a) decline in yard trimmings generation since 1990, largely due to state legislation discouraging yard trimmings disposal in landfills. In 2018, plastic products generation was 35.7 million tons,

or 12.2 percent of generation. This was an increase of 4.3 million tons from 2010 to 2018, and it came from durable goods and the containers and packaging categories. Plastics generation has grown from 8.2 percent of generation in 1990 to 12.2 percent in 2018. Plastics generation as a percent of total generation has varied from 12.2 to 13.2 percent over the past eight years.

In 2018, 2.7 million tons of selected consumer electronics were generated, representing less than 1 percent of MSW generation.

### Recycling

The total MSW recycled was more than 69 million tons, with paper and paperboard accounting for approximately 67 percent of that amount. Metals comprised about 13 percent, while glass, plastic and wood made up between 4 and 5 percent. Measured by tonnage, the most-recycled products and materials in 2018 were corrugated boxes (32.1 million tons), mixed nondurable paper products (8.8 million tons), newspapers/mechanical papers (3.3 million tons), lead-acid batteries (2.9 million tons), major appliances (3.1 million tons), wood packaging (3.1 mil-

lion tons), glass containers (3 million tons), tires (2.6 million tons), mixed paper containers and packaging (1.8 million tons) and selected consumer electronics (1 million tons). Collectively, these products accounted for 90 percent of total MSW recycling in 2018.

**Composting/Other  
Food Management**

The total MSW composted was 25 million tons. This included approximately 22.3 million tons of yard trimmings (more than a five-fold increase since 1990) and 2.6 million tons of food waste (4.1 percent of generation of wasted food).

Other methods of food management were estimated for the first time in 2018. In 2018, 17.7 million tons of food (28.1 percent of generation of wasted food) was managed through animal feed, co-digestion/anaerobic digestion, bio-based materials/bio-chemical processing, donation, land application and sewer/wastewater treatment.

**Landfilling**

In 2018, about 146.1 million tons of MSW were landfilled. Food was the largest component at about 24 percent. Plastics accounted for over 18 percent, paper and paperboard made up about 12 percent, and rubber, leather and textiles comprised over 11 percent. Other materials accounted for less than 10 percent each.

**Trends – 1960 to Today**

- Over the last few decades, the generation and management of MSW has changed substantially. Generation of MSW increased (ex-

cept in recession years) from 88.1 million tons in 1960 to 292.4 million tons in 2018. Generation decreased 1 percent between 2005 and 2010, followed by a rise in generation of 7 percent from 2010 to 2017. Generation rose from 268.7 million tons to 292.4 million tons in 2018, mainly as a result of EPA's inclusion of additional food management pathways.

- The generation rate in 1960 was just 2.68 pounds per person per day. It increased to 3.66 pounds per person per day in 1980. In 2000, it reached 4.74 pounds per person per day and then decreased to 4.69 pounds per person per day in 2005. The generation rate was 4.9 pounds per person per day in 2018, an 8 percent increase from 2017. The increase from 2017 to 2018 is mainly the result of EPA's inclusion of additional wasted food management pathways.

- Over time, recycling and composting rates have increased from just over 6 percent of MSW generated in 1960 to about 10 percent in 1980, to 16 percent in 1990, to about 29 percent in 2000, and to about 35 percent in 2017. It decreased to 32.1 percent in 2018.

- The amount of MSW combusted with energy recovery increased from zero in 1960 to 14 percent in 1990. In 2018, it was about 12 percent.

- Landfilling of waste has decreased from 94 percent of the amount generated in 1960 to 50 percent of the amount generated in 2018.

## Nebraska Materials Exchange Program Application

Identify the waste stream or surplus material you are generating or seeking. The more information provided, the more likely an exchange will occur. Questions? Call Keep Nebraska Beautiful at 800.486.4562. (or in Lincoln 486.4622) Please complete all applicable items. If you have more than one item, copy this form for each, or attach a list of materials & quantities.

Company/Organization \_\_\_\_\_ Date \_\_\_\_\_  
 Contact \_\_\_\_\_ Email \_\_\_\_\_  
 Mailing Address \_\_\_\_\_  
 City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_  
 Phone ( ) \_\_\_\_\_ Fax ( ) \_\_\_\_\_

1. Is your company/organization a 501(c) 3 nonprofit organization?      Yes      No
2. May we release your name/address/phone to interested parties?      Yes      No
3. Are you SEEKING or GENERATING this material?      Seeking      Generating
4. Please Specify Material Here: \*Generic name or primary usable constituent (If plastic, list mfg. & commercial name/grade #):  
 \_\_\_\_\_

5. List quantity (in units: pounds, etc.): \_\_\_\_\_ Per: Day Week Month Quarter Year 1X only
6. Physical state: (if applicable) Liquid Slurry Solid Semi-solid Sludge Dust Cake Gas Other
7. Packaging: (circle one) Bulk Drums Dumpsters Gaylords Pallets Bales Other \_\_\_\_\_
8. General information as known: chemical composition, type of plastic, main ingredients, cost, pH, toxicity, reactivity, color, particle size, flash point, total solids, purchase date, industrial process generating this material, contaminants, etc.  
 \_\_\_\_\_

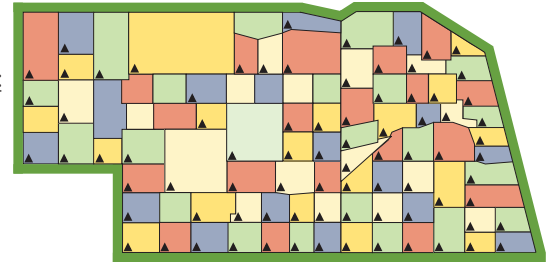

9. Available to interested parties (if applicable): Sample \_\_\_\_\_ Lab Analysis \_\_\_\_\_ Independent Analysis \_\_\_\_\_
10. Please list any items your company would be willing to donate to schools or nonprofit organizations.  
 (Working computers, office furniture and equipment, cleaning supplies, etc.)  
 \_\_\_\_\_

Thanks for your interest in the Materials Exchange. We'll keep in contact regarding your listing, & send email notices regarding the electronic publication of our quarterly newsletter The Link. If an Exchange referral results in a match, we'd appreciate the information - landfill diversion totals ensure the Exchange remains accessible & free to all Nebraskans.

Please mail, fax, or complete this form online:
