

Fall 2024

Solid Waste Infrastructure for Recycling Grants for Communities

As you may already know, the Heartland 2050 Solid Waste Working Group is working with state agencies to develop a statewide hub-and-spoke recycling system, ensuring that services will be available to a majority of Nebraskans. That said, there are other community recycling projects that would greatly benefit from federal funding, as last month's release of the following EPA opportunity demonstrates.

The Bipartisan Infrastructure Law provides \$275,000,000 total from Fiscal Year 2022 to Fiscal Year 2026 for grants authorized under the Save Our Seas 2.0 Act. Projects funded through the funding opportunity will:

- Implement the "building a circular economy for all strategy series."
- Improve local post-consumer materials management programs, including municipal recycling.
- Make improvements to local waste management systems.

Eligible Applicants

The entities eligible to apply for the Solid Waste Infrastructure for Recycling Grants for Communities are political subdivisions of states and territories. EPA considers counties, cities, towns, parishes, and similar units of governments that have executive and legislative functions to be political subdivisions of states and territories. Read the Eligible Applicants section of the SWIFR for Communities Notice of Funding Opportunity (pdf) (577.92 KB) .

Eligible Activities

Materials and waste streams within scope of this funding opportunity include municipal solid waste, including plastics, organics, paper, metal, glass, and construction and demolition debris. This also includes the management pathways of source reduction, reuse, sending materials to material recovery facilities, composting, and industrial uses (e.g., rendering, anaerobic digestion), and feeding animals.

All applications must achieve one or more of the following objectives:

- Establish, increase, expand, or optimize collection and improve materials management infrastructure.
- Fund the creation and construction of tangible infrastructure, technology, or other improvements to reduce contamination in the recycled materials stream.
- Establish, increase, expand, or optimize capacity for materials management.
- Establish, improve, expand, or optimize end-markets for the use of recycled commodities.
- Demonstrate a significant and measurable increase in the diversion, recycling rate, and quality of materials collected for municipal solid waste.

Applications may include (but are not limited to) projects that fund:

- Programs that provide or increase access to innovative solutions or programs that provide or increase access to prevention, reuse,

and recycling in areas that currently do not have access; including development of or upgrades to drop-off and transfer stations (including but not limited to a hub-and-spoke model in rural communities), etc.

- The purchase of recycling equipment, including but not limited to sorting equipment, waste metering, trucks, processing facilities, etc.
- Upgrades to material recovery facilities (MRFs) such as optical sorters, artificial intelligence, etc.
- Construction of and/or upgrades to composting facilities or anaerobic digesters to increase capacity for food and organics recycling.
- Education and outreach activities as a minor element of larger eligible projects that are funded by the grant.
- Development of or upgrades to curbside collection programs or drop-off stations for organics.
- Development of and/or upgrades to reuse infrastructure (e.g., online reuse platforms, community repair spaces, technology and equipment to improve materials management reuse options, food donation, upcycling, staging areas for material reuse/donation, reuse warehouses, reuse centers, and electronic waste and computer recycling and refurbishing) and/or
- Other activities that the applicant believes will further the objectives of the NOFO provided those activities are eligible for funding under statute and the terms of the NOFO.

Available Funding

The total estimated funding for the competitive opportunity is approximately \$58,000,000. EPA anticipates awarding approximately 20 to 30 assistance agreements under this funding opportunity, with at least one award per each EPA Region. The minimum individual award floor is \$500,000, and the maximum individual award ceiling is \$5,000,000 for the grant period. This funding opportunity is in alignment with the Biden Administration’s Justice40 Initiative.

How to Determine Eligibility for Program Track

As described in the Notice of Funding Opportunity, projects will be funded under two tracks:

- Track 1: Projects that benefit disadvantaged communities as defined in the NOFO. EPA anticipates approximately 40% (or \$23,200,000) of the funding will be awarded to projects that benefit disadvantaged communities.
- Track 2: Projects that benefit all other communities that do not meet the definition of disadvantaged communities.

Applications must clearly indicate and provide adequate proof that the proposed project(s) fall under Track 1 or Track 2. If an application does not provide adequate proof that it qualifies for Track 1, EPA reserves the right to automatically re-assign an application to Track 2. Applicants must submit a screenshot of CEJST proving that it meets one or more of the eight disadvantaged categories identified in the Climate and Economic Justice Screening Tool (CEJST) developed by the Council on Environmental Quality, along with a brief narrative to illustrate that the proposed project will benefit a disadvantaged community. Applicants from territories can attest that they are located in a territory without submitting a screenshot of CEJST. If a project is intended to serve multiple communities, only one needs to be meet the definition of disadvantaged community as defined by the CEJST or be located in a U.S. Territory in order to be considered a Track 1 application.

Optional Notice of Intent to Apply

To allow for efficient management of the competitive process, EPA requests submittal of an optional, informal Notice of Intent to Apply by November 15, 2024 to SWIFR@epa.gov. Please include your approximate funding amount, the track under which you are applying (refer to Section I.E: Program Tracks of the NOFO for more information), and one to two sentences about the scope of your project. Submission of an Intent to Apply is optional. The Notice of Intent to Apply is not required but it is a process management tool that will allow the EPA to better anticipate the total staff time required for efficient review, evaluation, and selection of submitted applications.

Nebraska Materials Exchange Program Application

Identify the waste stream or surplus material you are generating or seeking. The more information provided, the more likely an exchange will occur. Questions? Call Keep Nebraska Beautiful at 800.486.4562. (or in Lincoln 486.4622) Please complete all applicable items. If you have more than one item, copy this form for each, or attach a list of materials & quantities.

Company/Organization _____ Date _____
 Contact _____ Email _____
 Mailing Address _____
 City _____ State _____ ZIP _____
 Phone () _____ Fax () _____

1. Is your company/organization a 501(c) 3 nonprofit organization? Yes No
2. May we release your name/address/phone to interested parties? Yes No
3. Are you SEEKING or GENERATING this material? Seeking Generating
4. Please Specify Material Here: *Generic name or primary usable constituent (If plastic, list mfg. & commercial name/grade #):

- _____
5. List quantity (in units: pounds, etc.): _____ Per: Day Week Month Quarter Year 1X only
 6. Physical state: (if applicable) Liquid Slurry Solid Semi-solid Sludge Dust Cake Gas Other
 7. Packaging: (circle one) Bulk Drums Dumpsters Gaylords Pallets Bales Other _____
 8. General information as known: chemical composition, type of plastic, main ingredients, cost, pH, toxicity, reactivity, color, particle size, flash point, total solids, purchase date, industrial process generating this material, contaminants, etc.

- _____
9. Available to interested parties (if applicable): Sample _____ Lab Analysis _____ Independent Analysis _____
 10. Please list any items your company would be willing to donate to schools or nonprofit organizations. (Working computers, office furniture and equipment, cleaning supplies, etc.)

Thanks for your interest in the Materials Exchange. We'll keep in contact regarding your listing, & send email notices regarding the electronic publication of our quarterly newsletter The Link. If an Exchange referral results in a match, we'd appreciate the information - landfill diversion totals ensure the Exchange remains accessible & free to all Nebraskans.

Please mail, fax, or complete this form online:
